Combining propriety high power design, 4 wavelengths, and fractional handpieces, Lutronic’s Q-Switch system can treat the full spectrum of patients. With built-in safety and customized parameters, even the busiest clinics can provide low-downtime, efficacious treatments at an affordable price.
In addition to the Hollywood Laser Peel® no downtime skin rejuvenation treatments, Spectra offers the best in class tattoo removal with superior color coverage, and Lutronic continually expands its treatment applications; Spectra is the first Q-switched Nd:YAG laser cleared for the treatment of melasma. The technically advanced Spectra system offers an edge over other lasers and provides enhanced clinical outcomes.

**DEPENDABLE**

- Auto-calibration and self restoring
- Workhorse — Robust and Durable

**EFFECTIVE**

- First FDA Cleared Q-Switch for Melasma
- Clinically Proven Worldwide
- Uniform Beam Profile

---

"It is a little known fact that the Spectra is the biggest selling Nd:YAG laser system in the world. It does everything from treating tattoos, pigmentation, all types of congenital nevi and more. Additionally, the system’s Hollywood Peel is a very quick, no downtime procedure to rejuvenate the face."

Steven Weiner, MD
